

AT-30T

BULK WEIGHING SCALE

The bulk weighing scale divides a batch of bulk materials into several parts, weighing and accumulating each batch to obtain the total weight of the bulk materials. It is suitable for weighing various granular materials and meets trade regulation.

Optional touch screen

5-30t/h

Flow rate range

30t/h

Maximum flow rate

55L

Hopper volume

Stable Performance

Easy Installation

Servo Motor Control

Weighing Accurate

Product Functions

- Non-continuous automatic accumulation function;
- Three-speed (free-falling) feeding control;
- Automatic zeroing function;
- Automatic correction function of process control;
- Accumulation and statistics function;
- Flow control function;

Product Features

- **Intelligent speed adjustment:** only need to set the target value, the scale will automatically adjust the optimal quantitative speed while ensuring accuracy;
- **Simple installation:** standard flange interface, fast installation;
- **Easy data export:** USB for export data records;
- **Convenient operation:** 7-inch/10-inch touch screen optional;
- **Safe materials:** 304 stainless steel for the part in contact with the material;
- **High speed and high precision:** free-fall feeding is fast and accurate;

Specification

Model	AT-30T
Power	AC220V \pm 10%, 50/60Hz, 1000W
Flow rate range	5~30t/h
Maximum speed	30t/h
Hopper volume	55L
Working temperature	0~40°C
Maximum humidity	90% R.H No condensation
Air source	0.4~0.6MPa 2m ³ /h

* Normally, the diameter of the testing material 1-5mm

Structure & Dimension

Unit: mm
